Simply chic ... beads on bangles

petite bead bangle bracelets \$50

pair with our petite & classic bracelets or with your other favorite bracelets for different looks!

Our silver plated petite bead bangle bracelets are sleek and chic.

Bangle cuff is adjustable so you can gently bend to fit your wrist.

Wear with a classic bracelet in the same pattern as shown in photos ... or pair it with a coordinating color theme.

These look great with your other silver bracelets, too!

The luxury silver plating makes them super tarnish resistant.

petite with crystals

Our crystal accented petite bracelets will take your style statement up a notch. Stack them for a super sparkly look or slip on with their "classic cousins".

petites

Since the beads are smaller than our classic beads, the petite bead bracelets have a slightly looser fit. They have 17 (10mm) beads and measure about 7 1/2" around your wrist.

little girls

Style starts early for girly girls, so get your cutie all decked out with a collection of her very own. Ages 4 - 8 normally love this size. They have 14 (10mm) beads and measure about 5 1/4" around your wrist.

All our little girls' styles come in petites and classics, so start here and work up if you want to find a look that's available in all three sizes.

Jill dresses look great worn on or off the shoulder. Try them over leggings or skinny jeans, too!

Sunny delights!

When the day calls for something flirty, these cute **Jill** dresses are perfect. The classic style features an easy fit with elastic empire waist and scoop neck.

Our **Carly** dresses are a fashion favorite from coast to coast. The butterfly sleeves, elastic empire waist and neckline give them an easy style you'll reach for all season.

We love them to slip into for morning coffee and over swim or gym stuff. Then off to run around town and over skinny jeans on cool nights. Try them off the shoulder or with sleeves tied in the back for even more looks.

Both are imported from Bali in hand blocked prints inspired by our favorite jewelry themes.
